

Region 7 Update for BQSIMB

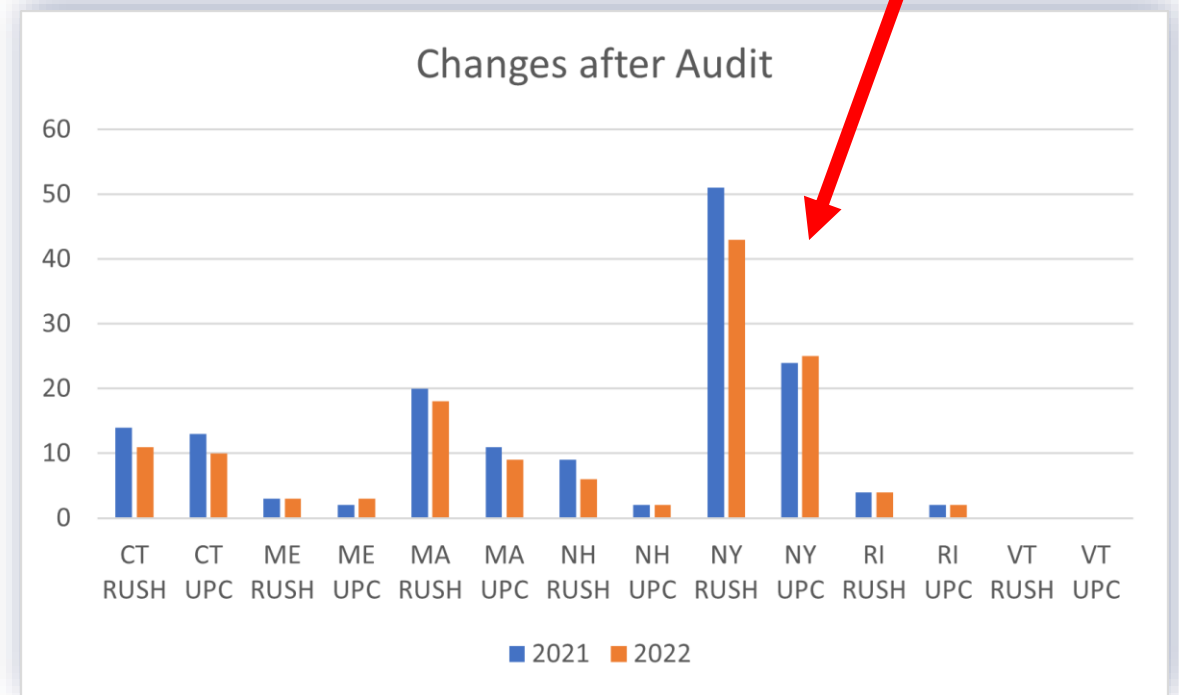

Margot Malachowski (she/her)

Education and Outreach Coordinator

December 5, 2022

Outreach to Hospital Libraries

- Concerns about unresponsive libraries in DOCLINE
- Hospital libraries audit done
- Next: academic libraries audit
- Upcoming webinar: History of the Rochester Study (Jan 12th)
 - <https://www.nlm.gov/training/class/region-7-presents-history-rochester-study-literature-discussion>

Graphic Medicine Book Kits

- Graphic Medicine is an emerging field that considers the role that comics can play in medicine – including medical education, health literacy, healthcare communication, and more.
- <https://www.nlm.gov/guides/region-7-graphic-medicine-0>

NNLM National Virtual Health Misinformation Symposium

- Free free virtual symposium
- Research behind health mis/disinformation movements
- Practical and evidence-based solutions
- Librarians, health educators, and direct care providers

Save the Date!
April 4-7, 2023

NNLM Course for Providing Multicultural and Multilingual Health Information

- TBD May 2023
- 4-hour Moodle is designed to assist librarians and others who work with diverse populations in locating health information.
- Resources presented are selected for their emphasis on providing culturally relevant information in the preferred language of the population.
- Background information on refugees and immigrants in the U.S. and their unique health issues will be presented.

Funding Applications due December 15th

- [Health Outreach](#): up to \$20,000
- [Technology Improvement](#): up to \$10,000
- Funding Period: May 1, 2023 -April 30, 2024

NNLM Region 7 is particularly interested in projects relating to rural health, substance use disorder, graphic medicine, and health outreach to speakers of other languages/English as a second language.
